

Christian Value

Truthfulness

'Be the best you can be; together we grow from acorns to oaks, flourishing in God's love.'

Year 1

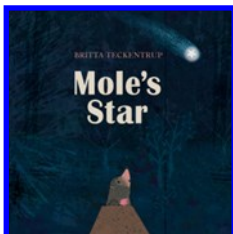

A Wonderful World!

Helping all children to become caring, confident and curious young people.

The subject web below shows some of the main areas of learning that will be covered in our class over the Spring term.

English

Phonics

We will be continuing on our Little Wandle Letters and Sounds journey!

Music

How Does Music Make the World a Better Place?

How Does Music Help Us to Understand Our Neighbours?

RE

We have two exciting questions to answer in RE this term.

What is the 'good news' Christians believe Jesus brings?

Who is a Muslim and how do they live?

Maths

As mathematicians, we will be looking at place value within 20, addition and subtraction within 20 and Length and Height, Mass and Volume.

After half term, we will explore place value within 50!

PE

PE will be on **FRIDAY** in Spring Term.

We will be dancers, sequencing and devising dances to The Carnival of the Animals.

In the warmer spring months, we will look at Striking and Fielding, Net and Wall skills.

Science

In the first half term, we will be studying animals. We will learn about a variety of familiar and less familiar animals, including fish, amphibians, reptiles, birds and mammals

In the second half, we will experience 'our changing world' in a variety of different ways. We will make observations of animal life in the school grounds, investigate the variety of birds that visit a school-based feeding station and learn about caring for different animals over time.

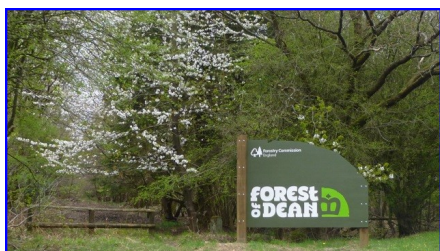

Art and DT

In **art**, we will look at the work of Henri Matisse - Fleurs De Neige - and do some printing.

In **DT**, we will use our English text *Where the Wild Things Are* to inspire a picnic lunch in the woods! We will design and make a picnic and evaluate it's deliciousness!

Geography

Our topic this term is based on Geography. We will name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding areas. We will be able to recognise where in the world the United Kingdom is, it's continent of Europe and where Bream and the Forest of Dean are situated on a map of our country and our county of Gloucestershire.

For more local geography, we will look closely at

Bream, it's past and present. We will identify human and physical features and find answers to questions like: What features does Bream have? What features have been added over time? Why have they been added?

We hope to visit the Dean Heritage Centre to learn more about our local geography and local history.
